

# Offering the discount

## **What does it include?**

It includes everything on our menu, except alcoholic drinks. You must eat on our premises to qualify.

## **When is the offer on?**

Monday to Wednesday from the 3rd August - 31st August.

## **What counts as a 'diner'**

A diner is any person, adult or child, for whom food or drink is being purchased for consumption on premises. A diner does not need to be the paying customer.

## **Applying the £10 per person cap to a single bill**

Where there is more than one diner on a single bill, the cap does not need to be calculated for each individual diner based on their specific orders. Instead, the discount that is applied to the overall bill and should be capped at the number of diners multiplied by £10.

### **Example of applying the cap to a £60 bill**

A group of four diners (2 adults and 2 children) spend £60, including £10 on alcoholic beverages. There is a 10% service charge bringing the pre-discount bill to £66.

#### **Bill**

before service charge and discount £60.00  
Amount spent on alcohol £10.00  
Service charge £6.00  
Total bill £66.00  
Amount that discount can be applied to £50.00  
Discount to customers (50% of 50) £25.00  
Bill- after discount is applied £41.00

The total discount is £25, which is £6.25 per diner and is below the £10 per diner cap.

### **Example of applying the cap to a £100 bill**

A group of four diners (2 adults and 2 children) spend £100, including £10 on alcoholic beverages. There is a 10% service charge bringing the pre-discount bill to £110.

#### **Bill**

before service charge and discount £100.00  
Amount spent on alcohol £10.00  
Service charge £10.00  
Total bill £110.00  
Amount that discount can be applied to £90.00  
Uncapped discount to customers (50% of 90) £45.00  
Capped discount (£10 per diner) £40.00  
Bill after discount is applied £70.00

The uncapped discount is £45, which is £11.25 per diner and is above the £10 per diner cap. The discount is therefore capped at £40.
